Bilkent Beamer Template 2

Alican Büyükçakır

Computer Engineering Department, Bilkent University

4th October 2026

Outline

1 Introduction to Beamer
- What is Beamer
- Useful Stuff to do with Beamer
- Color Choices of this template

2 References

Beamer for Presentations!

Beamer is a package that allows you to generate LaTeX-based presentations. There are many reasons to prefer Beamer over MS PPT. For instance:

- Using math equations
- Referencing Tables and Figures, as well as citations [Büyükçakır et al., 2018]

Paused Slide Flows

Here is an example of a paused-slide flow. (Notice the transparent text below)

$$f(x) = \sum_{i=1}^{N} (-1)^{2n+1} a_i x^i \tag{1}$$

Can refer to the above equation as if you are in any other LaTeXdoc. e.g. blabla see Equation 1

Paused Slide Flows

Here is an example of a paused-slide flow. (Notice the transparent text below)

$$f(x) = \sum_{i=1}^{N} (-1)^{2n+1} a_i x^i \tag{1}$$

Can refer to the above equation as if you are in any other LaTeXdoc. e.g. blabla see Equation 1

Can refer to the above equation as if you are in any other LaTeXdoc. e.g. blabla see Equation 1

Block, Alert, Example Boxes

Define Theorems, draw attention etc. by using boxes.

Block Title

Blocks are colored from Bilkent's color pallette.

Alert Block Title

Alert block is red.

Examples

This is an example box.. Example boxes are conventionally green.

Bilkent Theme

Bilkent University's logo have two distinct colors. For more information, see: `https://w3.bilkent.edu.tr/www/bilkent-logo/`

- Pantone Reflex Blue: `RGB(0,83,160)`
- Flag Red (Alizarin): `RGB(237,29,36)`

I used darker versions of Flag Red for the structure items such as top and bottom bars.
