The univie-ling bundle

Jürgen Spitzmüller*

Version 2.9, 2024/09/28

1 Aim

The univie-ling bundle consists of a set of classes as well as of a biblatex bibliography and citation style for students and academics at the University of Vienna, Austria, Department of Linguistics (`https://linguistics.univie.ac.at`). The classes follow the corporate design of the university and institutional regulations, as far as these apply.

The classes and styles are particularly suited for the field of Applied Linguistics and pre-load some packages that are considered useful in this disciplinary context. However, they might also be (and actually are) used for General and Historical Linguistics as well as for other fields of study at Vienna University. In this case, some settings might have to be adjusted.

This manual briefly introduces these classes and styles. Please refer to the linked manual of the respective class for details.

2 Classes and Styles

2.1 univie-ling-expose

The univie-ling-expose class provides a LaTeX 2_ε class suitable for those research proposals (*Exposés*) that are required in the context of the public presentation of a dissertation project (*FÖP*) at the University of Vienna. ▸ **Manual**

2.2 univie-ling-handout

The univie-ling-handout class provides a LaTeX 2_ε class suitable for handouts that accompany presentations in classes or at conferences. The class adheres to the corporate design of the University of Vienna (although no dedicated specs for handouts are provided there). Therefore, although this class has been written for students in the Department of Linguistics, it might also be useful for other fields and for students and researchers alike. ▸ **Manual**

*Please report issues via `https://github.com/jspitz/univie-ling`.

2.3 univie-ling-paper

The univie-ling-paper class provides a LaTeX 2_ε class suitable for papers ([*Pro*]*Seminararbeiten*) in (Applied) Linguistics at the Department of Linguistics, University of Vienna. ▸ **Manual**

2.4 univie-ling-poster

The univie-ling-poster class provides a LaTeX 2_ε class suitable for scientific posters in (Applied) Linguistics at the Department of Linguistics, University of Vienna. ▸ **Manual**

2.5 univie-ling-thesis

The univie-ling-thesis class provides a LaTeX 2_ε class suitable for Bachelor's, Master's, Diploma and Doctoral theses in (Applied) Linguistics at the Department of Linguistics, University of Vienna. ▸ **Manual**

2.6 univie-ling-wlg

The univie-ling-wlg class provides a LaTeX 2_ε class suitable for articles in the journal *Wiener Linguistische Gazette* (WLG), the house journal of the Department of Linguistics at the University of Vienna (`https://wlg.univie.ac.at`). ▸ **Manual**

2.7 Bibliography and Citation Styles

The bundle also includes a biblatex bibliography style (`univie-ling.bbx`) and a citation style (`univie-ling.cbx`) that implement the citation conventions common in Viennese (Applied) Linguistics. The style draws on the *Unified Style Sheet for Linguistic Papers*.[1] ▸ **Manual**

3 Release History

Please refer to the *Release History* sections in the manuals of the classes and to the *CHANGES* section in the ▸ README file.
