LogoTop.png
LogoTop.png

- A LaTeX template designed originally during my PhD for use at the University of Leeds
  (It is **NOT** officially endorsed in any way)
- This is a sample presentation & manual
- Other colour choices are allowed in the preamble
- University logo not supplied (copyright issues) - use your own
  File must be named “LogoTop.png” or “LogoTop.jpg”
- The images are copyrighted - a licence is herewith granted to use the supplied low resolution version on a royalty free basis in connection with this theme
  (If required, a format change from .png to jpg is allowed.)

- to reduce font warnings, the use of \usepackage{lmodern} is encouraged
- frame titles can be included by inserting them in a second set of braces, e.g.:
  \begin{frame}{frametitle}
  \end{frame}
- frame titles can be omitted by excluding the second set of braces, e.g.:
  \begin{frame}
  \end{frame}
- please refer to the Beamer documentation for Beamer options
  `http://mirror.ctan.org/macros/latex/contrib/beamer/`

- with release 1.02 the images on the first slide are exchangeable
- images must be named FS-img1, FS-img2, FS-img3
  "**F**irst **S**lide **im**ag**e**"
- a file ending is not defined, **png** and **jpg** were tested (in MikTeX)
- the aspect ratio of an individual image is 3:2
  (standard SLR aspect ratio)
- images will be scaled & transformed automatically where necessary
