## Publications

Hand each entry an INSPIRE id; the title and the count come back.

1. **[? title 2642414]**
2. **[? title 1701002]**
3. **A title in my own words**

The full reference, as INSPIRE itself formats it:
**[? ref 1701002]**

## A person

Author-level figures take the id they ask about, so a document can discuss several people:
**[? papers]** papers, over **[? citations]** citations, $h$-index **[? hindex]**.

## Over time

Citations of one paper, per year:
**[? plot 2642414]**
Papers by one person, per year:
