Work Experience

Admission Officer — September 2020 – Present
St. Anford Office of Admission and Financial Aid — *Berkeley, California, United States*
- Randomly select **50,000** qualified applicants to reject each year unless the applicants is a legacy or pays millions to William Rick Singer.

Software Engineer Intern — July 2021 – September 2021
Some Big Scientist Name Company — *Mars, Solar system*
- Developed a **long range rocket** that can send ants to Mars and cost as little as a house in Bay Area.
- Tried every kind of snacks offered at the office, including **La Tiao** (Spicy Bar).
- Finished **500** Leetcode questions while the manager was off duty.

CurtainOS Developer — January 2019 – Present
Self-Employed — *Blue Screen of Death*
- Fixed the **planet-wide** blackout caused by CurtainOS 8.
- Developed CurtainOS 11 task bar and widget section by **copying** FruitOS X.

Leadership Experience

Co-Founder & Team Lead — January 2021 – June 2021
St. Anford Admits (Hackathon Team) — *Palo Alto, California, United States*
- Copy other's code on **Stack Overflow** when encountering problems during hackathons.
- Use existing frameworks and machine learning libraries but makes it look like I write everything from ground up.
- Managed projects on **CatHub** during hackathons, messing up merge conflicts.
- Published **project demo videos** that no one watches.

Personal Projects

Auto Homework Coder (FruitOS App) | *YellowBird, PieGames, ByteNotDacing* — December 2020 – Present
- Can automatically complete coding assignments for college students and **avoid MOSS** detection.
- **Localized in 69 languages**, this app intends to reach a **global** community of struggling computer science majors.

Crush or Not (CurtainOS App) | *YellowBird, PieGames, ASUCB* — April 2020
- Use **state of art** machine learning, this app guesses if the person you like also likes you with **50% accuracy**.
- Players enter his or her personality and the target person's personality for the AI model to make a guess.

College Rejection Simulator (FruitOS Game) | *BigSnake, ASUCB, ByteNotDacing* — March 2019
- To avoid heart breaks, this game prepares **aspiring high school** students to embrace college rejections on **Ivy day**.
- Implemented an **in-app purchase** system so students can access college acceptance simulator.

Recent Awards

Nobel Prize Winner in Computer Science (1 of 50,000 selected worldwide) | *Nobel Prize Committee* — October 2021
Hottest Guy in Frat (out of 300 guys) | *Girls in Frat* — June 2021
