

The Lausanne Beamer Theme
With Beautiful Images

Robin Scheibler

October 4, 2026

School of Computer and Communication Sciences

École Polytechnique Fédérale de Lausanne, Switzerland

This is an example to use the `lausanne` beamer theme that I based on my recent presentations. Enjoy[1] ☺

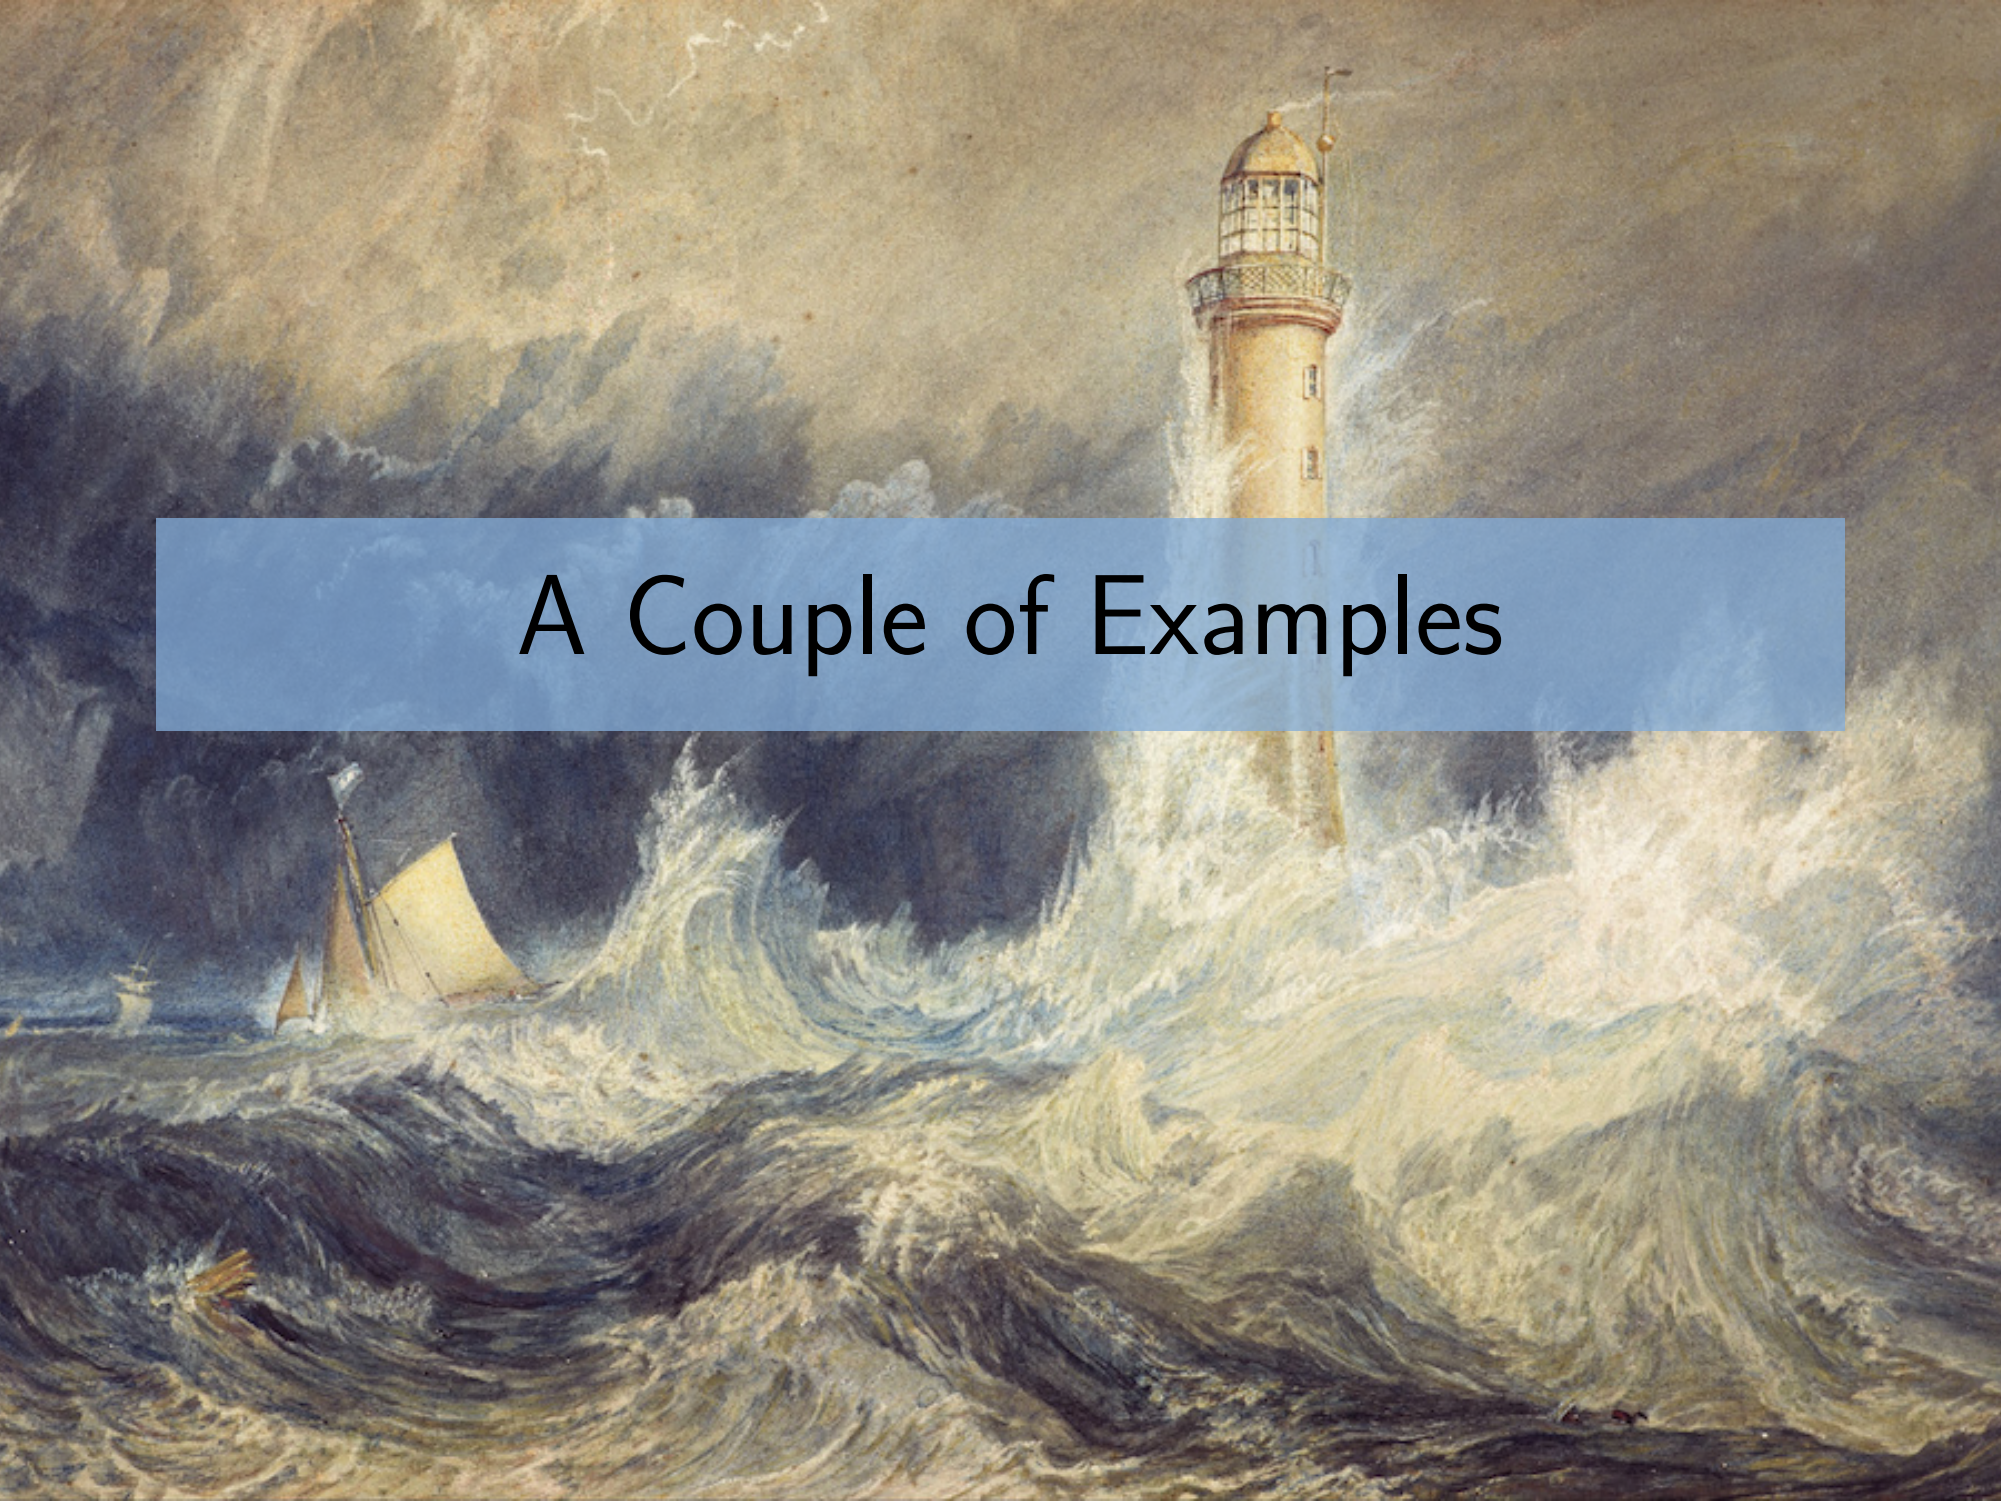

— Robin

[1] This is a starred section. Starred sections do not have a title page.

Outline

1. A Couple of Examples

2. A Normal Section

A Couple of Examples

What can we do ?

A great theme

- Beautiful full frame image
- Title and section title frames
- Semi-transparent boxes
- Take home message slides
- We can use plain bullets

✓ or maybe check marks!

✗ or cross marks!

☺ or a smiley!

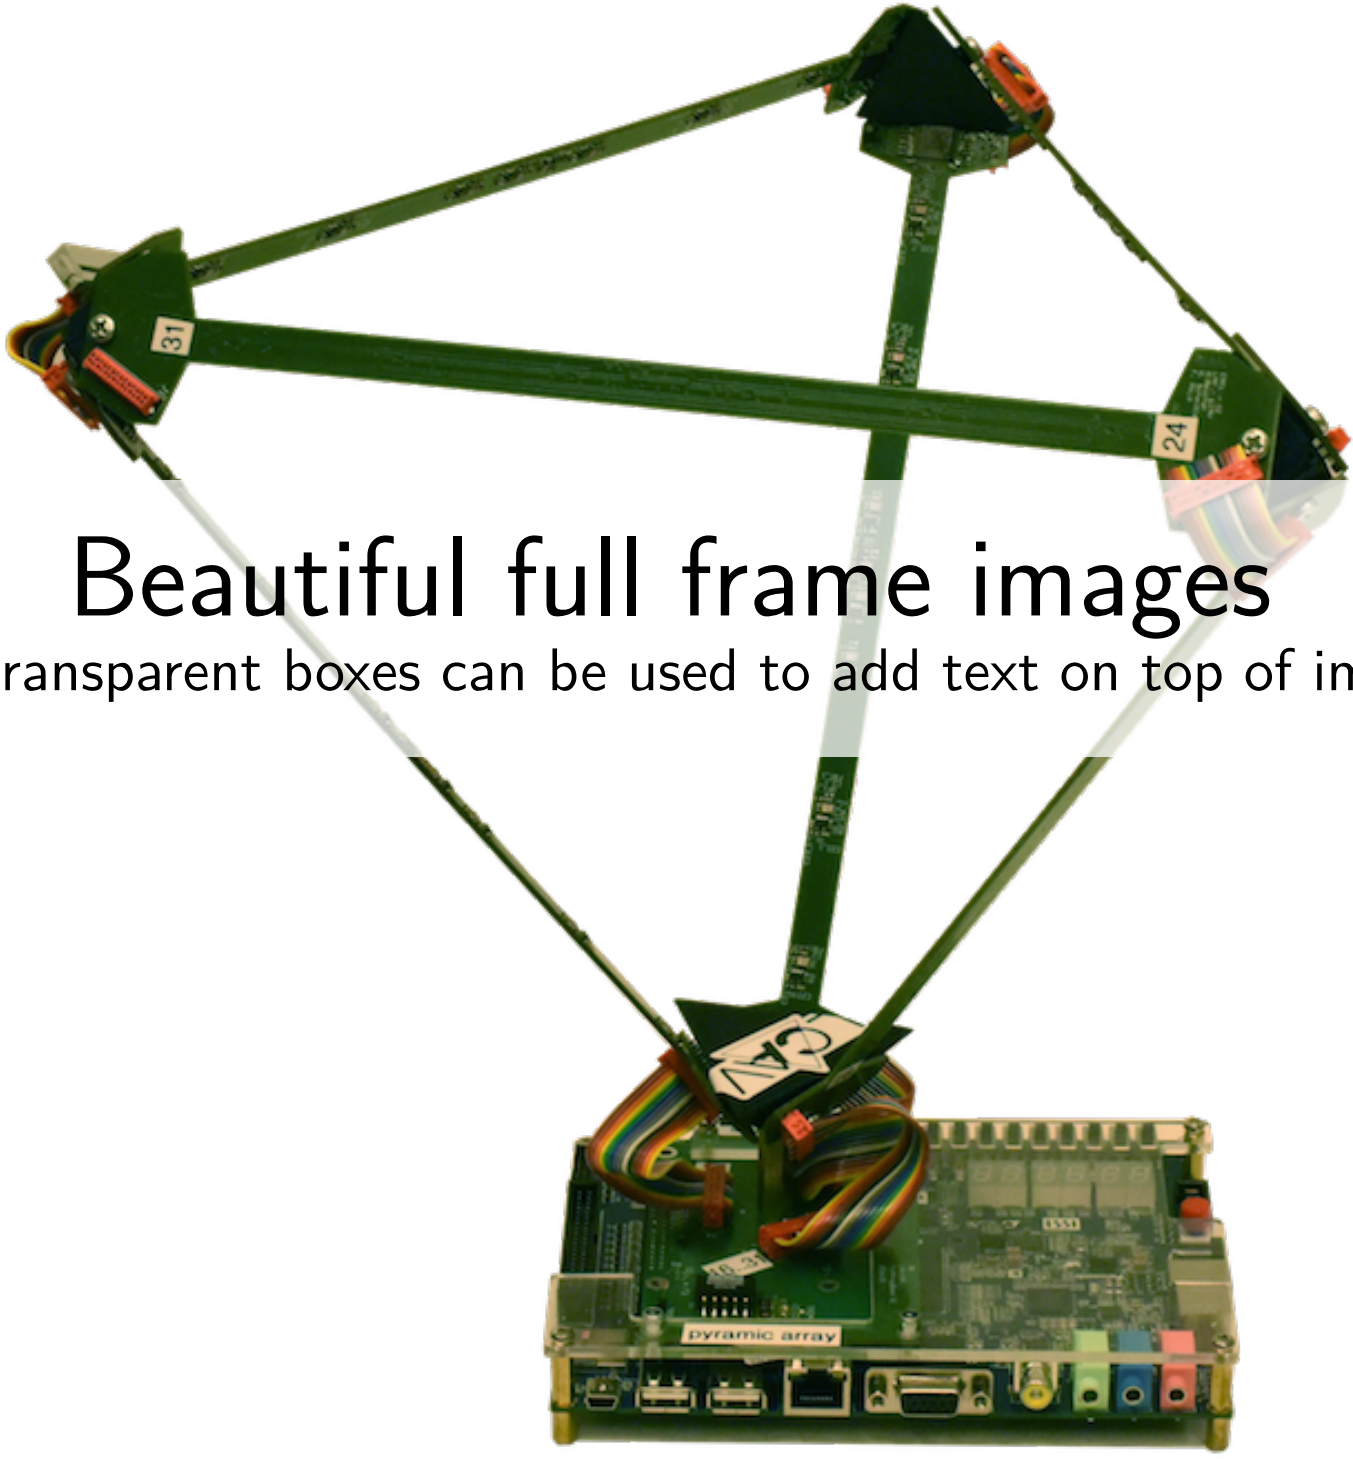

Changing a few things

- The dominant color can be changed by adding in the preamble

  `\usecolortheme[named=<colorname>]{structure}`

- To remove the section titles, add

  `AtBeginSection[]{}`

Beautiful full frame images

Semi-transparent boxes can be used to add text on top of images

Examples: Take Home Message

- Possible to create take home message with matching image
- An amazing journey
- Latex is a bitch

A Normal Section

Sections without images

- It is also possible to do sections without images.

We keep math in serif font, because it looks familiar

$$e^{i\pi} + 1 = 0$$
